

ACTON PARTNERS

# JEFFREY ACTON

PRINCIPAL

## BACKGROUND

Jeff Acton has over twenty years of experience in the engineering and construction industries. His specialties include enclosure peer review, detail development, litigation consulting, and large-scale assessment and repair design. Jeff enjoys designing constructible, water- and air-tight solutions for complex architectural details and interfaces. A significant part of his work involves assessment and testing of building enclosure-related issues, such as air and moisture leakage, cladding distress, and material failures.
